Mr. Sal Cimbolo,

The generosity that you share with the local community is overwhelming, we are lucky and greatly appreciative of the wonderful donation that was given to help support the Downey High School golf programs.

Both our boys' and girls' golf programs will use this money to help purchase golf training aids as we continue to try to develop the basic skills of many of our student athletes. We are proud to say our programs keep growing in numbers and over time will hopefully be one of the strongest in the area.

High School athletics are possible because of groups like yours, without you CIF and the schools would not be able to host first class events with first class athletes. Your company makes an impact on students, athletes and their communities. Projects that you support become stories for friends and families to relive time and time again. Personally, I have stories about participating in CIF sports which are inevitably told every time my high school friends and I get together. These fond, vivid recollections continuously influence my decisions as a teacher and a coach.

Once again, thank you for providing an opportunity to Downey High School athletes, as well as all high school athletes, to create lasting memories, which will never be forgotten.

Sincerely,

*Mark Rand*
